

Better Faster Cheaper...

the challenges facing all manufacturing companies

Learn how leading Manitoba manufacturers embraced Lean to drive up customer value. Lean is more than waste elimination. It's about engaging all staff in Problem Solving to create greater value for your customer. Come hear how Lean Principles and some of the core Lean tools can be applied quickly and easily to improve productivity and competitiveness.

Join us for breakfast

Thursday, February 2nd
at the Heartland Inn, Winkler from 7:30 – 9:30 am

And learn how more and more Manitoba businesses are
accelerating their journey to world-class performance

\$25 – hot breakfast included

Hands on Lean (10:00 am – 12:00 pm)

Participate in a hands-on simulation which makes Lean thinking and Lean manufacturing principles easy to grasp through experiential learning.

Facilitated by Canadian Manufacturers & Exporters (CME), Manitoba; **local business leaders will share** how being a member of a Lean consortium has helped develop their people and sustain their operational improvement efforts.
